Imagine having the perfect date with the woman of your dreams. You go out for dinner, you dance, you laugh and you end up going home together. But after a whole night of getting intimate and chatting - the boyfriend she failed to mention walks in, and then you're forced to sit through a very, very awkward argument. That's what happened to one bloke, who shared his cringe-worthy tale with Erika McCall and Niesha Forbes for their new book, *All Good Just A Week To Go*. But a little warning, there is some adult content in this hilarious tale...

I was digging this chick, but she was hesitant to go out with me because of her friend's advice. After tons of conversations and much pursuing, she agreed to go on a date with me. I took her out to eat at a spot downtown. There was a live band and great food.

After dinner, we went dancing at a lounge that was playing reggae. We spent the rest of our date grinding on the dance floor and continuing to indulge in multiple drinks. We became hot and bothered and headed to her house. When we get to her place, we indulged in some outstanding sex. We stayed up laughing and talking until sun came up. Around 7am, I heard the front door open. My hot date didn't budge, so I asked if she had a roommate. She replied: "It's probably my kid's father." I hopped out of bed and got in defense mode, ready to fight if I needed to. The bedroom opened, and in came her baby's daddy. He stood about 6ft 4 tall, and I waited for the homey to bug up.

THIS IS WHAT IT'S LIKE LIVING WITH A MICROPENIS

Instead, he looked at her and fell to his knees. "Why do you keep doing this to me? Why?!", he screamed. She looked down at him and said: "You know why." He said: "You didn't care when we got back together." At this point, I was spooked. Buddy continued to sob on the floor in a fetal position. When I got up to put my clothes on, she looked at him and said: "I can't get past your micropenis, I'm sorry."

After I was finally dressed, I stepped over buddy, who was blocking the door. When I got outside, I remembered I didn't drive. Now I was on her porch calling my guys and cabs to get home. The cab driver was about 15 minutes away. The man came out of the crib sniffling. He began engaging me in conversation, and I started feeling sorry for him. He asked if I needed a ride home, and I let him know I was waiting on a cab.

He told me to save my money. The entire ride home, this guy told me how he had been messing with his baby mama since high school, and he was her first. He said that as soon as she saw more penises in porn, they watched together, she started treating him differently. When he dropped me off, I called my date from the night before and told her about the conversation. I was like "WTF!". She confirmed the story and didn't care. It was such a crazy night. It was even wilder that the next day was Thanksgiving, and I was thankful that I didn't have a micropenis.
