A psychic detective has offered his services to the grief-stricken family of a young woman who mysteriously **vanished three years ago** at eight weeks pregnant.

Supernatural sleuth Troy Griffin recently led a crew of volunteers and dogs into the wilderness near Pueblo, Colorado, trailed by a camera crew for **ABC's Nightline**, in a search for missing woman Kelsie Schelling.

Griffin claims to have received psychic communication from Schelling, who was just 21 when she disappeared on her way from Denver, where she lived, to visit her boyfriend in Pueblo.

"When I contacted Kelsie, it was more just apologies: "I'm sorry mom, I didn't mean for it to happen. I didn't know," Griffin told Nightline.

The clairvoyant gumshoe, who says he hasn't accepted any money from Schelling's family, offered to help the woman's distraught mother find closure.

Psychic detective Troy Griffin recently led a search party for missing woman Kelsie Schelling in the roadside scrublands near Pueblo, Colorado

Schelling, 21, was eight weeks pregnant when she and her car disappeared in the area

Trooping into the grassy scrubland outside Pueblo, Griffin led the camera crew via the visions in his head.

'Visually I had almost the movie that a body was thrown over there,' Griffin explained to a parka-clad Sunny Hostin. 'I have in my mind a vision of where I think her body may be.'

Trooping through the brush and riverbeds, Griffin felt waves of nausea as he tuned in to the supposed psychic energies.

"When I feel something you'll see me stop, possibly sweat," he explained.

'I have in my mind a vision of where I think her body may be,' said Griffin

Schelling, right, left Denver to visit her boyfriend (left) in Pueblo when she vanished

The search proved fruitless, however. 'I don't feel Kelsie here at all,' Griffin concluded.

Notably, the psychic was unable to provide any concrete examples of when his investigations had aided law enforcement.

But he does believe Schelling was murdered, and has told the vanished woman's mother he thinks strangulation was involved.

If he's proven wrong, he said, it may be time to 'consider a different career.'
