

Proper tire inflation is a must, both for safety and tread life. Now, thanks to the Tire Guard, it can also be a no-brainer. Tire Guards replace the valve stem caps on your tires, to show the tire's inflation status by using color indicators, green, yellow or red. Green on the stem cap, as shown in the photo, indicates proper inflation. You already know the advantages of optimum tire inflation; now maintain it.

Priced at \$16.00 for a set of two. Visit www.thetireguard.com or call 516-942-0264. **Reader Service No. 180.**
