KEEP AN EYE ON YOUR PSI

Tire Signal from Borg Tire Supply is a psi indicator that replaces your existing tires valve caps. All you have to do to check your tire pressure is look at the color indicated on the cap. If the indicator is green your tire has the right amount of air. Yellow indicates your tire is missing a few pounds, and red indicates your tire has lost more than 7 pounds of air. Available in a broad range of pressure ratings and sold in a pack of two or four.
